

Festool Introduces Next Generation Sawing, Cordless Power, and Jobsite Solutions to Deliver Greater Precision, Runtime and Control

New professional solutions help tradespeople cut faster, reduce downtime, and stay productive across every stage of the job

LEBANON, Ind., August 27, 2026— [Festool](#), a leader in innovative, precision-engineered and durable power tool solutions, today announced an expanded portfolio of cordless power tools, jobsite accessories, and dust management innovations designed to help professionals build better. The new Fall product offerings improve productivity through enhanced cutting performance, longer runtime, better dust control, improved visibility, and more efficient workflows.

The new offerings include the TSC 55 KS Cordless Track Saw, HKC 55 K Cordless Carpentry Saw, TBX 8 Tableless Battery, SYS-MC 6/4 Rapid Charger, CLEANTEC CT SYS Dust Extractor, SYSLITE DUO-H I Hybrid Work Light, and a range of accessories designed to help professionals work cleaner, faster, and with greater control.

“Every product in this portfolio is designed to help professionals work more efficiently without compromising precision or performance,” said Philip Strnad, Director of Product and Brand Marketing at Festool. “From advanced cordless cutting solutions and next generation battery technology to elevated lighting, dust extraction, and workflow accessories, these innovations reflect our commitment to helping professional tradespeople deliver exceptional results on every jobsite.”

TSC 55 KS Cordless Track Saw: Perfect cuts. Anywhere.

For more than four decades, professionals have trusted Festool track saws for precision and reliability. The new TSC 55 KS builds on that legacy with advanced ergonomics and enhanced cordless performance:

- **More power, less weight:** A lightweight, single-battery design delivers strong cutting performance while improving handling and reducing fatigue.
- **KickbackStop technology:** Sensor-based KickbackStop reacts instantly to help reduce the risk of kickback and minimize interruptions.
- **Longer runtime and cleaner cuts:** A new 1/16" thin-kerf blade reduces resistance for faster cutting performance, cleaner results, and extended battery life. In combination with Festool's latest TBX 8 Tableless battery the runtime of the TSC 55 KS increases by 31%.*
- **Improved dust management:** A redesigned dust bag and lockable dust port help capture dust at the source for cleaner work.

HKC 55 K Cordless Carpentry Saw: Versatility and Power for Perfect Cuts.

Designed for framing, finishing, and everyday jobsite work, the HKC 55 K combines cordless mobility with enhanced cutting performance and accuracy:

- **Maximum performance:** The brushless EC-TEC motor and advanced electronics are optimized for use with the new TBX 8 Tabless Battery. Paired with the new 1.6 mm thin-kerf blades, the HKC 55 K cuts up to 3x faster.*
- **Mobile miter saw system:** Compatible with Festool FSK Guide Rails for quick, accurate, and repeatable cross-cuts on the jobsite.
- **Intuitive Operation:** Convenient depth adjustment, plunge-cut functionality, and bevel settings from 0° to 50° support a wide range of applications.

TBX 8 Tabless Battery and SYS-MC 6/4 Rapid Charger: More Power. Less Downtime.

Expanding Festool's cordless platform, the TBX 8 and SYS-MC 6/4 help professionals stay productive with fewer interruptions:

- **Maximum runtime:** The TBX 8 delivers 8.0 Ah capacity for demanding applications such as sawing and dust extraction.
- **Smart Connectivity:** Bluetooth® enables automatic dust extractor activation and access to battery information through the Festool app.
- **Fast Recharge:** AIRSTREAM cooling technology allows charging in as little as 25 minutes with compatible chargers.
- **Charge more at once:** The SYS-MC 6/4 Rapid Charger can charge up to four batteries simultaneously using a single outlet.

Built to Elevate the Entire Workflow

Festool is expanding its system with solutions that enhance visibility, dust control, organization, and jobsite mobility:

- **Portable Dust Extraction:** The CLEANTEC CT SYS Dust Extractor delivers professional dust extraction in a compact Systainer format, making it ideal for installation, service work, and punch-list applications.
- **Brighter Jobsite Visibility:** The SYSLITE DUO-H I Hybrid Work Light delivers up to 10,000 lumens with hybrid corded or cordless operation, while the LM-TS/TSC and LM-DTS/RTS Light Modules increased visibility directly at the cut line and sanding surface for greater accuracy and confidence.
- **Smarter Dust and Hose Management:** The new CT-ASA FLX J Boom Arm and CT-ASA FLX W Boom Arm keep hoses and cords overhead and out of the way, while the new SB/2-TSC/HKC Dust Collection Bag delivers convenient dust collection without a connected extractor.
- **Precision Cutting Accessories:** The FS-EP Depth Position Indicator helps users make accurate plunge cuts with upgraded entry and exit point alignment, while new 1/16" thin-kerf Saw Blades improve efficiency, runtime, and quality across Festool cordless saws.
- **Organization and Productivity Solutions:** New additions including the SK-CT/SYS Seat Cushion, HA-FS/2 Guide Rail Holder, HSK Sanding Blocks, and Granat abrasives

help professionals stay organized, work comfortably, and maintain efficient workflows throughout the jobsite.

Pricing & Availability:

These products will be available starting September 2026 at the below prices:

- TSC 55 KS Cordless Track Saw (577991) and HKC 55 K Cordless Carpentry Saw (579303)–\$599 each
- TBX 8 Tableless Battery (579271)–\$165
 - TBX 8 Starter Set (578903)–\$369
 - TBX 8 Energy Set (578947)–\$738
- SYS-MC 6/4 Rapid Charger (578501)–\$299
- LM-TS/TSC Light Module (578591)–\$49
- LM-DTS Light Module (578708) and LM-RTS Light Module (578836)–\$69 each
- SB/2-TSC/HKC Dust Collection Bag (578694)–\$52
- FS-EP TS/TSC55 Depth Position Indicator (578695) and FS-EP TS60 Depth Position Indicator (578696)–\$85 each
 - Accessory Kit (578697)–\$135
- CT-ASA FLX J Boom Arm (578517)–\$299
- CT-ASA FLX W Boom Arm (579518)–\$179
- HKS-A 80x130 Sanding Block (578960)–\$59
- HKS-Duo 88x133 Sanding Block (578959)–\$18
- SK-CT/SYS Seat Cushion (578730)–\$89
- HA-FS/2 Guide Rail Holder (578938)–\$15

Starting Winter 2026, The CLEANTEC CT SYS Dust Extractor (575280) will be available for \$399 and the SYSLITE DUO-H I Hybrid Work Light (578514) will be available for \$349.
